

Folding Endurance Tester

With this machine, a pliable specimen is placed under a constant tension load. MIT bending stiffness tester machine price. The main technical parameters

Corresponding standard

TAPPI-T423PM, ASTM-D2176, JIS-P8115, GB/T 2679.5, ISO-5626

Specifications

Measuring range	0~9999times
Folding angle	135±2°
Speed	175±10 times/min
Width of folding head	19±1mm
Arc radius of folding surface	0.38±0.02mm
Folding ports	0.25, 0.50, 0.75, 1.00mm(four gears))
